Summary

Backend Software Engineer with 3+ years of experience building scalable APIs and data pipelines. Comfortable across the stack, with a focus on Python services, relational databases, and cloud infrastructure.

Skills

Python, SQL, Django, REST APIs, PostgreSQL, AWS, Docker, Git, JavaScript, React

Experience

Backend Software Engineer — Finlytics Pvt Ltd

June 2023 – Present | Bengaluru, India

- Built and maintained REST APIs in Django serving 200K+ daily requests for a fintech reporting platform.
- Migrated batch reporting jobs from cron scripts to an Airflow-based pipeline, cutting failure rate by 40%.
- Containerized core services with Docker and deployed to AWS ECS, reducing deployment time from 25 minutes to under 5.

Software Engineering Intern — CloudNine Systems

January 2023 – May 2023 | Bengaluru, India

- Developed internal tooling in Python to automate PostgreSQL schema migrations across 12 microservices.
- Wrote integration tests that increased backend test coverage from 51% to 78%.

Junior Developer — PixelWorks Studio

July 2021 – December 2022 | Pune, India

- Built internal dashboards using React and a Django backend for studio project tracking.
- Maintained Git workflows and CI checks for a team of 6 engineers.

Education

B.Tech in Computer Science – Manipal Institute of Technology

Graduated 2021
